Five Year Capital Improvement Program – Introduction

Purpose of the Program

Cities continually face the need to repair and replace worn out and antiquated facilities and infrastructure and to build new ones that keep pace with citizen needs and community growth. To determine what, when, and where future improvements are to be made, the City Council adopts a Five Year Capital Improvement Plan which is reviewed and updated on an annual basis. The plan helps the City Council and staff better prepare for the future needs of the community while ensuring that adequate resources are available to finance those needs. Without this long range planning, public improvements may be given the wrong priorities, be poorly located, or unrealistic due to lack of available financial resources.

To formulate the Five Year Capital Improvement Plan, it is necessary to forecast funds available each year in the plan. The forecast is based upon facts and assumptions including actual trends and forecasted trends for revenues and construction costs. Typically, the forecast will demonstrate that the City does not have unlimited funds and that priorities must be established. With suggestions and input from City staff and the citizens of the community, the Council must undertake the task of prioritizing numerous projects and allocating them to the future years as funds are available.

This Five Year Capital Improvement Plan represents a schedule of major public improvement projects and expenditures which will guide budget development. It is the result of the Council's study and deliberation of the City's capital improvement needs.

Typical Projects

"Capital improvements" refer to infrastructure additions and improvements, rather than repairs. Typically, such improvements have a useful life of twenty years or more and a cost of greater than \$100,000. Merriam's Capital Improvement Program, consists of street improvements, drainage improvements, park improvements and facility improvements. Examples include:

Street Improvements

- Arterial streets safety improvements
- Curb, gutter, sidewalk, and storm drain construction
- Residential street lighting
- Traffic signal installation and coordination
- Bridge repair and rehabilitation

Drainage Improvements

- Bank stabilization
- Culverts
- Channel/creek improvements
- Flood mitigation projects
- Reconstruction/rehabilitation of old storm drain systems

Building Construction and Improvements

- Community Center
- Police Facility
- City Hall
- Visitor's Bureau
- Public Works

Park Acquisition and Development

- Land acquisition
- Parkland development & amenities
- Trail construction

Funding the Program

Merriam's share of the program costs is financed chiefly from sales tax collections. City Council Policy No. 116 permits the use of up to one-half of the City's 1.0% sales tax for the Capital Improvement Program. Additionally, Merriam voters have authorized a special 0.25% City sales tax dedicated to stormwater drainage and street improvements to be collected from January 2011 through December 2020. In January 2020, Meriam City voters extended the sales tax through December 2030. This tax provides funding to complete the street reconstruction program as well as drainage improvement projects identified in the Northeast Johnson County Watershed Study.

In September 2017, Merriam voters approved the issuance of \$24 million in bonds and implementation of a special 0.25% City sales tax to pay for a recreational facility at Vavra Park. This sales tax will be collected from January 2018 through December 2027.

City Council has further directed that the City's share of the Johnson County "courthouse" sales tax (effective April 2017 through March 2027) be used to support the Capital Improvement Program.

Many projects can be undertaken only with the assistance of outside funds including:

- CARS County Assisted Road System (Johnson County)
- SMAC Stormwater Management Advisory Council (Johnson County)
- KDOT Kansas Department of Transportation (State)
- CDBG Community Development Block Grant (Federal)

Impact of Projects on the Operating Budget

Maintenance of road and drainage improvements is an ongoing expense that is a normal part of the City's operating budget. Many of the road and drainage projects included in the plan are improvements to existing infrastructure. The anticipated impact of a project (if any) on the operating budget is described on individual project pages.

Program Development

The development process of the Capital Improvement Program involves input from various groups within the City. Following suggestions/requests from citizens, staff identifies and ranks the project based on criteria including:

Safety concerns

- Property value/loss of property
- Availability of outside funding sources
- · Community-wide benefit

After review and consideration, staff recommends appropriate projects to City Council along with project impact and approximate cost of improvement. Council reviews the capital improvement program each spring as part of the City's budget process and provides guidance as to priorities.

City Council's Role

City Council is the decision making body of the City and approves all project budgets. The Capital Improvement Program is prioritized and authorized by the Council each year. Once a project is part of the five-year Capital Improvement Program, Council approves various milestones during the project including:

- Selection of engineer or architect
- Review of concept studies and designs
- · Approve designs and concurrence to bid
- Acceptance of construction bid
- Approval of change orders during construction
- Acceptance of certificate of completion

Five Year Capital Improvement Program – Highlights

The Highlights summarize the facts, assumptions, and projections that were used to formulate this Capital Improvement Program (CIP) which continues efforts to upgrade and maintain City streets, improve stormwater/drainage infrastructure, and rehabilitate bridges.

Description of the Capital Project Funds

Capital Improvement funds are comprised of three separate categories, described below. Except for General Projects, restrictions apply to the use of project funds.

- 1. General CIP Projects Funding is provided by the City Council's Capital Improvements Funding Policy (#116). The policy allows for transfers up to 50% of the 1.0% City Sales Tax plus 0.25% of the City Use tax. There are no restrictions on the type or location of projects using these funds.
- 2. Special Sales Tax Projects Stormwater/Streets Merriam voters approved a 0.25% City Sales tax dedicated to stormwater drainage and street improvements, to be collected for ten years from January 2011 through December 2020. In January 2020, Merriam votes extend the City Sales tax through December 2030. Revenues are supplemented with external grants whenever possible. Projects may be supported by transfers from General Projects if needed.
- 3. I-35 Redevelopment District Projects Revenue consists of property taxes from the tax increment generated by the I-35 Redevelopment District less contractual payments to developers. Eligible projects must be located within the boundaries of the I-35 Redevelopment TIF District. Balances have grown due to completion of obligations under TIF agreements with some developers. Additionally, TIF increment has risen with property values. Funds may be used for economic development or projects in accordance with approved project development plans.

Fund Balances

- 2022 Balances (Unaudited) Overall CIP balances increased by \$2.4 million, to \$28.1 million, due to higher than anticipated sales tax receipts and a smaller CIP project year. The Restricted Tax Increment Financing (TIF) fund balance had an ending balance of \$1.4 million. The General and Special Sales Tax Project funds totaled \$26.7 million, with sales tax collections exceeding project and debt service expenses.
- 2022 Actual Expenditures Project expenditures and transfers for debt service totaled \$5.1 million, including: W. Frontage Road Curb and Gutter and 55th Street; Merriam Drive to west City Limits projects.
- 2023 Balances (Projected) Projected CIP balances at December 31, 2023 are \$26.7 million after estimated expenditures and transfers of \$11.5 million. Expenditures for 2023 include \$4.0 million for Underground Utilities, \$1.6 million for 55th Street; Merriam Drive to West City Limits, and \$1.2 million for infrastructure maintenance. Estimated revenues and transfers are \$10.1 million.
- 2024 (Projected) Projected CIP balances at December 31, 2024 are \$30.1 million including \$2.5 million restricted TIF funds. Estimated 2024 CIP expenditures are \$9.1 million. Estimated 2024 revenues are \$12.6 million including \$5.6 million from General Fund sales tax transfers, \$2.4 million from the 0.25% Street/Stormwater City Sales Tax collections, and \$2.7 million from various federal and county grants.

Connection between the Bond Fund and the CIP Program

Outstanding general obligation (GO) bonds will total \$9,430,000 at December 31, 2023. Related debt service is funded from the Bond Fund mill levy and a special 0.25% cent City sales tax dedicated to the recreational facility bonds. It is projected that these revenues will fully fund the annual debt service. If necessary a transfer from the Capital Improvement Fund to the Bond Fund will make up the difference.

Project Summaries

The summaries below are for significant, upcoming projects. More information on all programmed projects may be found on the individual project pages which follow.

General Projects

- Downtown Revitalization The plan includes funding to facilitate two Planning Sustainable Places grants that will take a Complete Streets approach to redeveloping Merriam Drive between Johnson Drive and Antioch. The design of the 2023 and 2025 CARS funded street projects will be based on these studies.
- Pedestrian and Bicycle Mobility The Comprehensive Plan 2040 identified pedestrian and bicycle mobility as a top concern. In 2021, a study was conducted which provided a strategic plan to implement planned roadway and trail way improvements.
- Streetlight LED Conversion This program is to transition from HPS to LED street light fixtures.
- Public Art This program is to beautify, give a positive image and provide a sense of place to various locations throughout the community by installing unique pieces of art.
- Park & Recreation Masterplan & Implementation Development of a Park & Rec. Masterplan including capital improvements, facility management, park amenities, future park and trail locations.
- Public Transit Improvements Improvements to public transit stops.
- Upper Turkey Creek Feasibility Study/Construction This is a complex, long-term project that requires cooperation from multiple jurisdictions at the local, county, state and federal levels. It would address flooding concerns in the Upper Turkey Creek basin.

Special Sales Tax Projects (Stormwater/Streets) - effective January 2011 thru December 2030

- Traffic Signal Protective-Permissive Left-Turn Phasing Whenever possible convert existing traffic signals to allow for left turns when there is a sufficient break in opposing traffic.
- Merriam Drive (Johnson Drive to 55th Street) The scope of the work includes replacement of curb, gutters, sidewalk, ADA ramps as required, a 2-inch mill and overlay and new pavement markings.
- 75th Street (Switzer Road to Antioch Road) A partnership with the City of Overland Park to replace curb, gutter, pavement markings and a 2-inch mill and overlay.
- 50th Terrace (England Street to Kessler Lane) Drainage Project Improvement will replace a deteriorated drain system.
- Other CARS-eligible projects Five additional projects will be submitted for Johnson County CARS funds: 49th Street (Antioch to Switzer); Merriam Dr. (55th to Antioch Rd); Johnson Drive street improvements; Merriam Dr. (Shawnee Mission Pkwy to Johnson Drive) and Carter Ave (Turkey Creek Dr. to Carter).

• Street & Drainage Projects – Includes improvement to 61st Street (Antioch Road to East City Limits); 60th Street (Hardy to East City Limits); 59th Terrace (Hardy Street to East City Limits); Johnson Drive (Mackey to East City Limits); improvements to the Antioch and Merriam Drive intersection, and West Vernon Place Subdivision.

Maintenance Program

The Public Works department routinely inspects and maintains City streets, sidewalks, sidewalk ADA ramps, curbs, storm drains, streetlights, etc. Based on inspections, staff has developed a 5-year Maintenance Program. The Maintenance Program is typically funded from the Special Highway Fund and general projects.

The 2024 maintenance project includes W. 50th Terr, W. 51st St., W. 51st Terr., Booker St., Benson St., England St., Grandview Ave., W. 49th Terr., and Grant St. The scope of the work includes the replacement of curb/gutters/sidewalk/ADA ramps, 2-inch mill/overlay, replacement of some storm drains, new pavement markings and street light improvements as needed.

Individual project pages for planned maintenance projects are included in the "Maintenance Program" section of this document.

^{*} Street and stormwater projects have been estimated to reduce rather than increase costs. Additionally, most projects are not estimated to have a material impact on future maintenance costs.

City of Merriam, Kansas

Project # PI TBA-2022

Project Name Downtown Revitalization

Type Improvement

Useful Life

Category General CIP

Department Public Works / CIP

Contact

Priority 3 Important

Description

Over the last several years the City has facilitated several public processes on future development options for Historic Downtown and the Cityowned property at 5701 Merriam Drive. These studies include the Park Facilities process, Future of 5701 Merriam Drive process, the Comprehensive Plan 2040, Bike/Ped Plan and Planning Sustainable Places grants. This project funding will be used to implement the recommendations of those studies, fund additional studies, as well as to fund any additional required enhancements or acquisitions along the Merriam Drive corridor.

Justification

Meets council goals and objectives.

Expenditures		2024	2025	2026	2027	2028	Total
Design & Other		800,000	250,000	250,000	250,000	250,000	1,800,000
	Total	800,000	250,000	250,000	250,000	250,000	1,800,000
Funding Sources		2024	2025	2026	2027	2028	Total

1	Total	800,000	250,000	250,000	250,000	250,000	1,800,000

Budget Impact/Other

Budget impact will depend upon the choices made for future development.

City of Merriam, Kansas

Project # PR TBA-2021

Project Name Pedestrian and Bicycle Mobility Program

Type Improvement

Department Public Works / CIP

Useful Life

Category General CIP

Contact
Priority 3 Important

Description

The Comprehensive Plan 2040 identified pedestrian and bicycle mobility as a top concern. In 2022 a bicycle facilities study was approved. This study has created a map and street/trail profiles of identified/classified key bike/trail routes (i.e. residential shared the road, bike corridors with dedicated on-street bike lanes, routes with off-street facilities within ROW, and bike/trail routes that are not along streets, etc.). Merriam will identify area each year to achieve our pedestrian and bicycle vision.

Justification

Meets council goals and objectives. Sustain capital improvement efforts. Improve safety for all modes of travel throughout the community.

Expenditures		2024	2025	2026	2027	2028	Total
Bike/Trail Implementation		75,000	75,000	75,000	75,000	75,000	375,000
	Total	75,000	75,000	75,000	75,000	75,000	375,000
Funding Sources		2024	2025	2026	2027	2028	Total
General		75,000	75,000	75,000	75,000	75,000	375,000
	Total	75,000	75,000	75,000	75,000	75,000	375,000

Budget Impact/Other

This project will have a minor impact to the mainteance budget as pavement markings will need to be maintained.

City of Merriam, Kansas

Project #

PR TBA-2025

Project Name Streetlight LED Conversion Program

Type Improvement

Department Public Works / CIP

Useful Life

Contact Public Works Director

Category General CIP

Priority 3 Important

Description

With the City Council goal to encourage energy-reducing & recycling efforts, this program is to transition from HPS to LED street lighting fixtures. This program dedicates available dollars each year to add LED fixtures to existing streetlights. These new fixtures will be installed and maintained by the City's Public Works department.

Justification

Meets council goals and objectives. Sustain capital improvement efforts. Improve safety for all modes of travel throughout the community.

Expenditures		2024	2025	2026	2027	2028	Total
Material		150,000	150,000	150,000	150,000	150,000	750,000
	Total	150,000	150,000	150,000	150,000	150,000	750,000
Funding Sources		2024	2025	2026	2027	2028	Total
General		150,000	150,000	150,000	150,000	150,000	750,000
	Total	150,000	150,000	150,000	150,000	150,000	750,000

Budget Impact/Other

The new LED streetlights will continue to be metered and maintained by the City's Public Works department. The Public Works department will experience a reduction of power consumption at a projected rate of 50% by utilizing LED technology.

City of Merriam, Kansas

Project # PA Ongoing
Project Name Public Art

Type Improvement

Useful Life

Category General CIP

Department Public Works / CIP

Contact

Priority 3 Important

Description

In accordance with the City Council Goals & Objectives, this project is to beautify, give a positive image, and provide a sense of place to various locations throughout the community by installing unique pieces of art. The ad-hoc Art Committee comprised of residents, elected officials and staff will be reengaged to guide the selection and implementation process. Staff will be investigating a policy aimed to replace and/or offset some of the required funding for this project with private funding sources.

Justification

Meets council goals and objectives.

Expenditures		2024	2025	2026	2027	2028	Total
Design/Construction		115,000	115,000	115,000	115,000	115,000	575,000
	Total	115,000	115,000	115,000	115,000	115,000	575,000
Funding Sources		2024	2025	2026	2027	2028	Total
General		115,000	115,000	115,000	115,000	115,000	575,000
	Total	115,000	115,000	115,000	115,000	115,000	575,000

Budget Impact/Other

This project is not expected to have a significant effect on the operating budget however additional funding will be necessary to maintain art

City of Merriam, Kansas

Project # P&R TBA-2025

Project Name Park and Recreation Master Plan

Type Improvement

Useful Life

Category General CIP

Department Public Works / CIP

Contact Parks & Recreation Director

Priority 3 Important

Description

In an effort to better serve the changing needs of Merriam residents, a wholistic system wide Parks and Recreation Master Plan is needed. This plan will identify a 10-year vision for Merriam Parks and Recreation program offerings, general capital improvements, facility management, park amenities, future park locations and types, future trail locations and types. Project costs for the various improvements will be estimated and implementation timeframes outlined as part of the process.

Justification

Recreation needs and community demographics change. A Master Plan will provide a guide for staff to identify the needs of the community and aids in identifying resources required to meet those needs through facilities, amenities and programs. Meet council goals and objectives.

Expenditures		2024	2025	2026	2027	2028	Total
Master Plan Process			125,000				125,000
Implementation				250,000	250,000	250,000	750,000
	Total		125,000	250,000	250,000	250,000	875,000
Funding Sources		2024	2025	2026	2027	2028	Total
Various			125,000	250,000	250,000	250,000	875,000
	Total		125,000	250,000	250,000	250,000	875,000

Budget Impact/Other

The impact will depend on the outcome of the system wide Master Plan and the needs identified by stakeholders and residents. Staff anticipates that improvements could allow for a growth in programming that could increase revenues.

City of Merriam, Kansas

Project # PI TBA2-2024

Project Name Public Transit Improvements

Type Improvement

Department Public Works / CIP

Useful Life

Category General CIP

	Total	15,000	15,000	15,000	15,000	15,000	75,000

Budget Impact/Other

This project is not expected to have a significant effect on the operating budget however additional funding will be necessary to maintain Transit Improvements

City of Merriam, Kansas

Project # TBA-2023

Project Name Upper Turkey Creek Improvement

Type Improvement

Department Public Works / CIP

Useful Life

Category General CIP

Contact

Priority 3 Important

Description

In May of 2002, the City entered into an agreement with the USACE to assist in funding of the Feasibility Phase Study in an effort to define flood mitigation options. In January 2013, USACE hosted an Alternative Formulation Briefing with the Federal Agencies as a final step to finalize the Feasibility Study Report. In February 2013, the USACE requested the City to sign a non-binding Letter of Intent and financial certification in support for the project. In May 2015, the KC Regional Corps Engineers and City Staff presented the project to the Civil Works Review Board in Washington D.C. At this meeting, the project competed with other flood mitigation projects nationwide for funding. It was moved forward for Agency Review. It is anticipated that final engineering will take additional two years after study/preliminary engineering phase. Staff received verbal support for funding from SMAC/JOCO for construction when the project is ready to move forward. The easement acquisition that is subject to Federal Uniform Act (for property acquisition for construction) is not a SMAC eligible expense.

In spring, 2013, National Oceanic Atmospheric Administration (NOAA) released a new rainfall study for the Midwest region identified as Atlas 14. The USACE received comments from other Federal reviewing authority to address the higher rainfall rate in the Feasibility Study. This may affect the latest cost estimates.

Upper Turkey Creek Improvement**

From Shawnee Mission Pkwy to Waterfall Park (Railroad Crossing)

Justification

To address infrastructure needs that exist in Merriam today and will start the City on a path of making regular investment in the City maintenance and improvement.

Expenditures		2024	2025	2026	2027	2028	Total
Construction				3,000,000	3,500,000	3,500,000	10,000,000
	Total			3,000,000	3,500,000	3,500,000	10,000,000
Funding Sources		2024	2025	2026	2027	2028	Total
General				3,000,000	3,500,000	3,500,000	10,000,000
	Total			3,000,000	3,500,000	3,500,000	10,000,000

Budget Impact/Other

This project is not expected to have a significant effect on the operating budget. Merriam Drainage District has maintenance jurisdiction along Turkey Creek and its banks.

City of Merriam, Kansas

Project # PI TBA-2024

Project Name Underground Utilities

Type Improvement

Useful Life
Category General CIP

Department Public Works / CIP

Contact

Priority 3 Important

Description

This project will underground utilities along the Shawnee Mission Parkway corridor from I-35 and to just east of Antioch Road between W. 62nd Terrace between W. 64th Terrace. Undergrounding the utilities along Shawnee Mission Parkway will beautify the corridor and improve the reliability of utility services. While this project is separate for the redevelopment of the Kmart site, it will be coordinated with that site's construction activities.

Justification

Meets council goals and objectives.

Expenditures		2024	2025	2026	2027	2028	Total
Utility Relocations		4,000,000					4,000,000
	Total	4,000,000				WV 17 W 17	4,000,000
Funding Sources		2024	2025	2026	2027	2028	Total
1-35 TIF		4,000,000					4,000,000
	Total	4,000,000					4,000,000

Budget Impact/Other

The project will be paid out of the TIF Funding and will not effect the operation budget

City of Merriam, Kansas

Project # PR TBA1-2022

Project Name Traffic Signal - Permissive Left-Turn Phasing

Type Improvement

Department Public Works / CIP

Useful Life

Category General CIP

Contact

Priority 3 Important

Description

Whenever possible convert existing traffic signals to allow Protective-Permissive Left-Turn Phasing to aid in the movement of traffic and reduce unnecessary idling. The cost will cover traffic signal study and if warranted the modifications necessary allow Protective-Permissive Left-Turn Phasing. We will look at one intersection a year.

Justification

Meets council goals and objectives. Sustain capital improvement efforts. Improve safety for all modes of travel throughout the community.

Expenditures		2024	2025	2026	2027	2028	Total
Material		35,000	35,000	35,000	35,000	35,000	175,000
	Total	35,000	35,000	35,000	35,000	35,000	175,000
Funding Sources		2024	2025	2026	2027	2028	Total
General		35,000	35,000	35,000	35,000	35,000	175,000
	Total	35,000	35,000	35,000	35,000	35,000	175,000

Budget Impact/Other

This project is not expected to have a significant effect on operating budget

City of Merriam, Kansas

Project #

DR TBA-2027

Project Name West Vernon Place Drainage Improvement

Type Improvement

Department Public Works / CIP

Useful Life

Category General CIP

Contact

Priority 3 Important

Description

This project entails the rehabilitation of West Vernon Place Subdivision Street and Drainage system. This Project would bring the streets up to current APWA standards. The scope of work includes the replacement of curb/gutters, new sidewalk/ADA ramps as required, a 2-inch mill/overlay, new pavement markings, and new storm drainage system, along with a water quality treatment system.

Justification

Meets council goals and objectives. Sustain capital improvement efforts. Improve safety for all modes of travel throughout the community.

Expenditures		2024	2025	2026	2027	2028	Total
Engineering				171,336			171,336
Utility Relocations					95,187		95,187
Construction					1,496,466		1,496,466
	Total			171,336	1,591,653		1,762,989
Funding Sources		2024	2025	2026	2027	2028	Total
1/4th-cent Sales Tax				171,336	1,591,653		1,762,989
	Total			171,336	1,591,653		1,762,989

Budget Impact/Other

These improvements will reduce the yearly maintenance costs of repairing a deteriorated drain system. However with the recommended installation of a water quality treatment measure to treat stormwater before it enters Turkey Creek annual or biannual cleaning would be needed.

City of Merriam, Kansas

Project # CARS GC2201

Project Name CARS 2023 Merriam Dr - Johnson Dr. to 55th St.

Type Improvement

Department Public Works / CIP

Useful Life

Category General CIP

Contact

Priority 3 Important

Description

The project entails the rehabilitation of Merriam Drive from Johnson Drive to 55th Street. The scope of work includes the replacement of curb/gutters/sidewalk/ADA ramps as required, a 2-inch mill/overlay, and new pavement markings. Streetlights and traffic signal improvements as needed. The City of Merriam plans to request funding from Johnson County CARS.

Justification

Meets council goals and objectives.

City of Merriam, Kansas

Project # DR TBA-2023

Project Name 50th Ter./England St. to Kessler St. Drainage

Type Improvement

Department Public Works / CIP

Useful Life

Category General CIP

Contact
Priority 3 Important

Description

These subdivisions were developed in phases without any comprehensive drainage system improvements. This system begins on 47th Ter., flows south and outlets in the side/back yard of 9224 50th Ter. The water leaving the storm drain then crosses properties to an inlet/catch basin near England St. and 50th Ter. Our current storm drain design criteria is to design for a 10-year rain event, and this current system is experiencing issues during 2-year rain events.

Justification

To address aging infrastructure needs that exist in Merriam today. Meets council goals and objectives. Sustain capital improvement efforts.

Expenditures		2024	2025	2026	2027	2028	Total
Construction		936,736					936,736
Construction Engineering/Other		93,674					93,674
	Total	1,030,410					1,030,410
Funding Sources		2024	2025	2026	2027	2028	Total
1/4th-cent Sales Tax		1,030,410					1,030,410
	Total	1,030,410					1,030,410

Budget Impact/Other

These improvements will reduce the yearly maintenance costs of repairing a deteriorated drain system. This will allow Public Works crews to focus on maintaining current system infrastructure.

City of Merriam, Kansas

Project # CARS GC 2401

Project Name CARS 2025 49th Street- Antioch Rd. to Switzer Rd.

Type Improvement Useful Life

Category General CIP

Department Public Works / CIP

Contact

Priority 3 Important

Description

This project entails the rehabilitation of 49th Street - Antioch Road to Switzer Road. The scope of work includes the installation of new sidewalk on the south side of 49th Street, the replacement of curb/gutters/sidewalk/ADA ramps as required, a 2-inch mill/overlay, and new pavement markings. The City of Merriam plans to request funding from Johnson County CARS.

Justification

Meets council goals and objectives. Sustain capital improvement efforts. Improve safety for all modes of travel throughout the community.

Budget Impact/Other

These improvements will reduce the yearly maintenance costs of patching deteriorated curbs and asphalt pavement. This will allow Public Works crews to focus on maintaining street infrastructure on streets not slated for mill/overlay in the near future. Included in this project is funding for the installation of new streetlights, which will reduce the cost of outsourcing repairs to the current system.

City of Merriam, Kansas

Project # PI TBA-2027

Project Name Merriam Connected Corridor Improvements

Type Improvement

Department Public Works / CIP

Useful Life

Category General CIP

Contact
Priority 3 Important

Description

In partnership with the City of Overland Park, the Corridor Plan recommendation for Merriam Drive, from 50th Terrace to East City Limits, would reduce the number of existing lanes with a shared use path. In addition, the plan would include a "peanut" roundabout for the intersection of Antioch Road and Merriam Drive. W. 50th Terrace will become an eastbound one-way street connecting Merriam Drive to Antioch Road. Access to Merriam Drive for W. 49th Terrace traffic will be eliminated. The roundabout would provide a number of benefits including full access to Merriam Drive and becoming a Gateway for Downtown Merriam, corridor beautification, and improved safety for all users.

Currently, the Cities involved have started a preliminary engineering study (PES) for the corridor. The purpose of the PES is to provide a detailed engineering analysis of the proposed corridor improvements from W. 51st Street to the Overland Park boundary. A significant part of the PES will be determining the feasibility of the roundabout. The PES will also make access management recommendations for the corridor. A recommendation to remove existing private driveways that are in close proximity to the intersection could be considered. The PES will also review if private property will need to be acquired to install the roundabout. The PES process will include public outreach. Construction of the proposed corridor improvements could start in 2027.

Justification

Meets council goals and objectives.

Expenditures		2024	2025	2026	2027	2028	Total

Priority 3 Important

Description

City of Merriam has aging drainage infrastructures including Corrugated Metal Pipes (CMP) and Reinforced Concrete Pipe (RCP) that are at risk of failure. Various trenchless technologies are available and have been widely used throughout North America. Such trenchless pipe installation technologies include Cured-In-Place-Pipe (CIPP), thermo-formed Ultra-Liner and Pipe Bursting, which all utilize existing pipe cavity and line the pipe instead of trenching across street sections. The cost of these technologies is becoming very competitive and in many cases can be more economical due to savings in logistics and cost of traffic control over busy streets and reconstruction of street over the trench. Another benefit to the trenchless technology is the significant reduction in risk of liability and safety in trenching adjacent to homes and yards. If trenchless technology is not feasible, City Staff will collaborate to find best option including in-house work with the Public Works crews.

Justification

Meets council goals and objectives. Sustain capital improvement efforts.

Budget Impact/Other

After recent citywide inspections, Public Works has begun the process of prioritizing repairs to the storm sewer pipes. This program will allow many sections of pipe that have been rated with a poor condition to be reconstructed within that years' designated budget amount. Public Works crews will have the opportunity to schedule and make necessary repairs to other failing storm sewer infrastructure by utilizing the current operating budget.

City Council provided direction to assess the condition of existing sidewalks throughout the City and to conduct repairs and maintenance as needed. This program is to supplement the Public Works efforts in addressing these types of repairs.

Justification

Meets council goals and objectives. Sustain capital improvement efforts. Improve safety for all modes of travel throughout the community.

Expenditures		2024	2025	2026	2027	2028	Total
Construction		70,000	0	144,000	200,000	200,000	614,000
	Total	70,000	0	144,000	200,000	200,000	614,000
Funding Sources		2024	2025	2026	2027	2028	Total
General		70,000	0	144,000	200,000	200,000	614,000
	Total	70,000	0	144,000	200,000	200,000	614,000

Budget Impact/Other

Sidewalk repairs currently resides within the operating budget as its sole funding source. This supplement will not only allow more aging and potentially hazardous sections of sidewalk to be replaced, but also create more opportunities for Public Works crews to address other maintenance tasks as needed.
